**HERBST BROTHERS'  
SPECIAL SCOT'S PINE**

is the product of the most pains-taking tree-breeding in the last 200 years of practical forestry.

**FOR STRAIGHT-  
GROWING TREES**

**General Data:** These trees grow from 65 to 98 feet high and attain an age of 66 to 120 years. Knots usually on upper third of trunk—lower two-thirds clear. Needles 2 3-10 inches to 3 1-10 inches long—borne in very heavy clusters.

Color of needles: deep green from September to April—a trifle lighter from May to August.

Seedlings reach a height of 4 to 6 inches in first year—growth thereafter, 11 to 25 inches yearly.

**It's Fast Growing and Good**

Please remember that ALL "H. B. SPECIAL SEED" are gathered from trees—never from the ground.

The climber's equipment consists of: a half-bushel conebag slung across the shoulders; a light-weight 8 to 10 foot pole with a hooked end for drawing in the cone-bearing branches for ease in picking; and the usual lineman's climbers.

## Yellow Round or Flat Danvers Onion Seed

We have about 1500 lbs. of a very good strain which germinates 70%. As we are anxious to sell this seed this season we are making you a special price of \$.55 per lb., f.o.b. New York, subject unsold.

This seed is particularly adaptable for the production of Onion Sets.

# Test The SEEDS You Plant

THE MASTER SEED TESTER is an attractive flat dish in which is placed a porous disc and over the disc fits a clear glass bell. *You just put one hundred seeds, (one in each little recess in the porous disc,) add water, put on the glass bell and Nature does the rest.* Nothing could be simpler, nothing could be more effective.

Price \$3.50 complete, post paid, cash with order please. Safe delivery guaranteed.
